

PRODUCT INFO

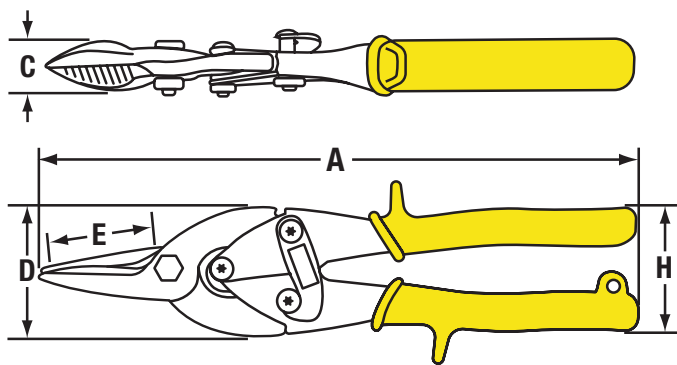

STRAIGHT AVIATION SNIP

CH6716-S

DESCRIPTION

Channellock Standard Snips offer dual-handed gripping power, resulting in cleaner curved and straight cuts with minimum effort. Channellock Aviation Snips are 100% Made in USA and the blades are forged from molybdenum alloy steel for durability and strength. The combination of precision machined serrations on cutting blades, 8:1 compound leverage and high tensile steel handles greatly optimizes cutting performance with less effort.

FEATURES

- Cuts wide left/right curved and straight.
- Cutting capacity: 18ga cold rolled steel, and 22ga stainless.
- Forged molybdenum alloy steel for ultimate strength and durability.
- Precision formed blades for complete cutting strokes and accurate trim cuts.
- 8:1 compound joint action for maximum cutting power with minimum effort.
- Long lasting double overwind spring reduces hand fatigue.

BARCODE: 025582835819

OVERALL LENGTH (A): 250.83mm

JOINT THICKNESS (C): 20.96mm

JOINT WIDTH (D): 57.79mm

CUTTING EDGE (E): 34.93mm

HANDLE SPAN (H): 52.07mm

WEIGHT: 381.02g
