

PRODUCT INFO

T59 INSULATED CABLE STAPLE GUN

ART59

DESCRIPTION

The Arrow T59 insulated cable staple gun is the Pros' choice for installing data and communication cables that are up to 5/16" (8mm) diameter. Whether installing Cat 5 cables, RG-59, or RG-6 cables this tool will secure the wires without crimping. A grooved wire guide tracks along the cable, speeding the work and preventing damage. Also features chromed steel housing, hardened steel working parts, a reliable and durable rear load magazine, and a comfort handle. For use with Arrow T59 staples.

FEATURES

- All-steel construction with durable chrome finish.
- Pin low-voltage wire, and television and data cable up to 8mm in diameter.
- Features a grooved guide and driving blade for perfect stapling without crimping wires.
- Patented jam-proof mechanism.
- Easy compression handle.
