MARKING CRAYON

MC100G

DESCRIPTION

Retsol Marking Crayons are the ultimate choice for professionals in the construction and woodworking industries. Crafted with precision in New Zealand, these crayons are specially designed for marking timber and steel surfaces. Made from high-quality paraffin wax, they offer exceptional durability and a smooth application. These crayons boast light-fast pigments, ensuring that your markings remain vivid and fade-resistant even under the harshest conditions. Waterproof and certified non-toxic in accordance with New Zealand Government Regulations, Retsol Marking Crayons guarantee both safety and longevity. They are available in a vibrant array of colors, including black, blue, red, green, white, and yellow, making them the ideal companion for any marking task.
