

PRODUCT INFO

DEEP-REACH STEEL BAR CLAMPS

DESCRIPTION

When your project calls for a deeper hold, reach for Jorgensen deep throat steel bar clamps. They contain all the same high-quality materials as our traditional steel bar clamps but with five-inch reach. Cast-iron stationary and sliding heads with an orange, powder coated finish are merged with a high-carbon, rust-resistant steel bar that packs a whopping 80,000 pounds per square inch of tensile strength. Welders take note: the copper-plated screws, handles, and swivels help protect against weld spatter in welding jobs. The clamps are equipped with a soft grip handle for added comfort. Furthermore, our innovative multiple-disc-clutch design enables the sliding head to securely hold at any desired position along the bar.

SKU	BARCODE	OPENING	REACH	PRESSURE	BAR (WxD)	WEIGHT
AJP4512	044295451208	304mm (12")	127mm (5")	544kg (1200lb)	35mm (1 3/8") x 8mm (5/16")	2541g
