

PRODUCT INFO

MARKING KNIFE

FP949

DESCRIPTION

The Footprint Marking Knife is an essential tool for woodworkers, carpenters, and DIY enthusiasts. It is primarily used for marking wood before cutting it. The knife features a beechwood handle that is comfortable to grip and easy to control. The bevelled blade on one side allows for a flush position against the edge being followed, making it easier to mark the wood accurately. The blade is made from hardened spring steel, ensuring that it is durable and long-lasting. With a blade length of 50mm and a total length of 150mm, the Footprint Marking Knife is compact and easy to use, making it an ideal tool for marking and cutting tasks. Whether you're a professional woodworker or a DIY enthusiast, this marking knife is a reliable and versatile tool to have in your toolbox.
