## STAINLESS STEEL RULE

### DESCRIPTION

The Toledo Stainless Steel Rule epitomizes durability and precision, crafted from high-quality hardened stainless steel, guaranteeing an enduring service life. Its double-sided design offers versatility, with metric measurements on the front and imperial on the back, each boasting graduations on both upper and lower edges. Featuring numerical markings every 10mm on the metric side and every 1 inch on the imperial side, accuracy is paramount. With one square end and one rounded end, complete with a convenient hanging hole, usability is maximized. Photographically etched markings ensure exact readings, reflecting meticulous craftsmanship. Proudly made in Japan, this rule is a testament to superior engineering and meticulous attention to detail.

SKU	BARCODE	LENGTH	WIDTH	THICKNESS	WEIGHT	GRADUATIONS
TL150B	9300784006535	150mm / 6"	15mm	1mm	10g	Front Upper 0.5mm Front Lower 1mm
