REPLACEMENT BLADE

ZE5005-1

DESCRIPTION

Introducing the Replacement Pipe Cutter Blade, designed for the ZE5026-1 Plastic Raptor Pipe Cutter (Ø 26mm). Crafted with precision from stainless steel, its specialized cutting geometry effortlessly slices through plastic and multilayer pipes. Featuring a PTFE coating, it ensures smoother and cleaner cuts with every use. Thanks to the ICS "Instant Change System," replacing the blade is a breeze – done with just one hand, eliminating the need for extra tools.

FEATURES

- Designed for use with the ZE5026-1 Plastic Pipe Cutter.
- Stainless steel blade with specialized cutting geometry.
- For cutting plastic and multilayer pipes.
- PTFE coating ensures smoother and cleaner cuts.
- Easy blade replacement with one-hand operation using the ICS "Instant Change System".
