INTERNAL CORNER TROWEL

RG65401S

DESCRIPTION

This professional Ragni internal corner trowel has a premium, rust-resistant, Japanese stainless steel blade that will flex to form perfect tight 90-degree corners, due to its “butterfly” design. Features a non-slip ergonomic handle with a finger guard to protect hands when in operation. This drywall tool is lightweight and is designed to embed tape and smooth final layers of mud for a sharp, smooth, and clean internal corner.

FEATURES

- Ideal for tight, awkward corners.
- Flexible “butterfly” design - Unique to Ragni.
- Japanese stainless steel.
- Non-slip handle with finger guard.
- Registered blade design flexes for perfect corners.
