

PRODUCT INFO

DEPTH STOP RING SET

PG620-00

DESCRIPTION

The PG Professional 3pc Depth Stop Ring Set is a precision tool designed to achieve precise drilling depths for joinery tasks. It also helps to prevent any accidental drilling into the workpiece. Tailored for wood twist drill bits, this set features a Ø 6mm, 8mm, and 10mm ring, catering for the most common drill bit and dowel sizes. By using these rings, woodworkers can ensure consistent and accurate drilling depths, enhancing the quality and precision of their joinery work.

FEATURES

- Used to set drilling depth.
- Best used for joinery work.
- Also helps to avoid drilling into the table/workpiece.
- For wood twist drill bits.
- Set includes Ø 6, 8, 10mm rings.
