

PRODUCT INFO

COMBINATION SQUARE

SWTC134M

DESCRIPTION

The Swanson 400mm Combination Square features CNC machined working surfaces for enhanced accuracy, with 45° and 90° marks for precise measurements. Its impact-resistant acrylic level vial is more durable than traditional tube-type vials. Versatile and multifunctional, it serves as a miter square, try square, depth gauge, and more. The precision-machined die-cast zinc body, high-impact composite head, and spring-loaded brass bolt ensure firm, accurate settings. It includes a stainless steel etched blade with all metric mm scale graduations and a screw-fit brass and hardened steel scribe.

FEATURES

- Precision machined die-cast zinc body.
- Hi-impact composite head.
- Spring loaded, brass bolt assures firm, accurate settings.
- Etched Stainless Steel blade.
- Screw fit brass and hardened steel scribe.
- Impact resistant acrylic vial.
- All metric - mm scale graduations.
- Functions as a miter square, try square, depth gauge, and more.

BARCODE: 038987011344

LENGTH: 406mm

WIDTH: 127mm

DEPTH: 19mm

BLADE WIDTH: 25mm

BLADE THICKNESS: 2mm

BLADE MATERIAL: Stainless Steel

BODY MATERIAL: Die-cast zinc

GRADUATIONS: mm

WEIGHT: 385g
