SELF FEED EXTENSION BIT

DW3-EXT140

DESCRIPTION

The DeWalt 140mm Self Feed Extension Piece is an indispensable tool for those seeking to extend their drilling capabilities. With the ability to increase drilling depth by up to 140mm, it opens up new possibilities for tasks that require extra reach. Thanks to its optimized cutting geometry, this extension piece ensures a longer bit life, making it both cost-effective and efficient. The open tooth design adds to its value by allowing for more resharpenings, further extending its longevity. Designed exclusively for use with DEWALT self-feed drill bits, it offers compatibility and reliability. Its 11.1mm hex shank ensures a secure fit, but it's essential to note that it should not be used in a drill press, ensuring safety and optimal performance in the right applications.

FEATURES

- For use with the DEWALT self feed drill bits.
- Suitable for use with both corded and cordless drills.
- Increases drilling depth up to 140mm.
- Open tooth design allows for more resharpenings.
- Not to be used in drill press.
- Includes allen key.

BARCODE: 5035048072172

LENGTH: 140mm

SHANK: 11mm (7/16") HEX

PACKAGING: 170 x 45 x 40mm

WEIGHT: 220g
