# SAFETY EARMUFFS

## PG505-40

### DESCRIPTION

The PG Professional Safety Earmuffs are designed for optimal noise reduction, offering a high level of protection while remaining compact, lightweight, and comfortable for extended wear. Their pivot pin mounting allows for 360-degree rotation, catering to various user preferences. The soft, wide cushions ensure even pressure distribution, complemented by an adjustable headband for a personalized fit. Ideal for environments with dynamic machinery or motorized tools, these earmuffs meet the European Standard EN352-1, guaranteeing their efficacy. Their medium/large size accommodates a wide range of users, featuring a durable construction with a plastic headband, ABS/HIPS cups, and soft PVC leather cushions for lasting comfort and performance.
