

PRODUCT INFO

ROTATING HANDLE

BY1793

DESCRIPTION

Cleaning and unblocking drains, pipes, and chimneys has been made easier with this Bailey Rotating Handle. The handle is connected directly to the end of the drain rods, once connected the handle is turned in either a clockwise or anti-clockwise fashion to enable an easier rotation of the rod. The body of this handle is made from quality steel and has been fitted with a solid brass Lockfast joint, ensuring strength and durability during use. The Lockfast joint offers more security to the connection of the drain rod as the joint is secured with a locking nut. The connection can't come undone whichever way the rods are turned. For use with Bailey Blue Rods®.

FEATURES

- Makes the rotation of drain rods easier.
- Brass threaded lockfast fitting for secure attachment.
- Direct secure connection to drain rod.
- Helps with the cleaning and clearing of pipes.
- Lockfast fitting allows being rotated in either direction.
