

PRODUCT INFO

300MM COMBINATION SQUARE

FS58

DESCRIPTION

The Fisco Combination Square is a versatile measuring tool that can perform multiple functions with ease. Its blade is 300mm long and is made of premium quality stainless steel, making it suitable for use in areas where solvents and chemicals are heavily used. The blade features deep-etched graduation markings in millimeters, which ensure accurate measurements every time. The stock is made of precision cast zinc and features a graduated protractor that can turn through 360°. The combination square also includes two vials and a steel scribing pin. It can perform the functions of outside and inside try square, mitre square, depth and marking gauge, spirit level and plumb level, steel rule, straight edge, and scriber. With all these features, the Fisco Combination Square is a must-have tool for anyone who wants to measure with precision and accuracy.
