

PRODUCT INFO

NIPPLE CUTTER & CATCHER

PT8561

DESCRIPTION

The Plumtool Nipple Cutter & Catcher offers a swift solution for cutting bevel brass threads and lugged elbows, ensuring a seamless plumbing experience. Its design eliminates the risk of scratching tiles, replacing the traditional hacksaw. Equipped with a debris-catching feature, the clear catcher allows visibility of the cutting progress. The tool boasts a flat cutting blade and a angled blade on the other side, both housed in a single-piece shaft, minimizing chattering. This precision instrument enables users to create a flawless sealing surface, offering the flexibility to achieve a flat or chamfered end on the nipple.

FEATURES

- Fast way to cut bevel brass thread and lugged elbows.
- Eliminates the risk of scratching tiles with a hacksaw.
- Includes catcher to collect debris.
- Reverse to bevel edges.
- Clear catcher to see how far you have cut.
