

PRODUCT INFO

DIAMETER TAPE

YD3M

DESCRIPTION

The Yamayo “Million” Diameter Tape is a robust measuring tool designed for estimating the diameter of cylindrical objects, such as tree stems or pipes. This 10m / Ø3mm PVC-coated fiberglass tape is housed in a durable ABS case and features a claw hook end for secure measurements. One side of the tape measures standard circumference, while the other provides direct diameter readings, allowing for high accuracy. With superior durability, high visibility, and non-conductive, weather-resistant properties, it ensures reliable performance in various conditions. Additionally, the tape is easy to clean in water, making it a practical choice for fieldwork.

FEATURES

- PVC-coated fiberglass tape in ABS case.
- Measures the diameter of cylindrical objects (trees, pipes).
- Claw hook end.
- Circumference measurement on one side, diameter on the other.
- Superior durability.
- High accuracy.
- High visibility.
- Non-conductive.
- Weather resistant and easy to clean in water.

BARCODE: 4957111583600

BLADE LENGTH: 10m / Ø3mm

BLADE WIDTH: 12.5mm

BLADE THICKNESS: 0.47mm

TENSION: 20N

CASE HEIGHT: 128mm

CASE WIDTH: 154mm

CASE DEPTH: 30mm

WEIGHT: 243g
