

PRODUCT INFO  
**CLAMPING PADS**  
**AJP7463**

**DESCRIPTION**

The Clamping Pads Set is designed as replacements for the Jorgensen 337 Series Heavy-Duty E-Z HOLD Expandable Bar Clamps. These soft, durable plastic pads eliminate the need for traditional wood blocks, offering a resilient, nonstick, nonslip cushion. Ideal for clamping wood, metal, and plastic surfaces, each set includes 4 pads, enough to replace pads on 2 clamps. They provide a protective barrier that securely grips surfaces during clamping, ensuring a firm hold without damaging materials, making them essential accessories for woodworking and metalworking projects alike.

**FEATURES**

- Soft, durable, plastic pads.
- Provide a resilient protective cushion when clamping wood, metal and plastic surfaces.
- Non-mar, non-stick, non-slip pads eliminate wood blocks.
- Compatible with the AJP337 Series Heavy-Duty E-Z HOLD Expandable Bar Clamps.
