

PRODUCT INFO

SPEEDLITE® MAGNETIC TORPEDO LEVEL

SWTL021M

DESCRIPTION

The Swanson Speedlite® 225mm/9" Magnetic Torpedo Level is the perfect tool for demanding job sites. Its rugged composite frame, equipped with rubber, shock-absorbing end caps, ensures durability and withstands abuse in challenging conditions. Accurate readings are guaranteed, thanks to its consistent performance. This level's full-length strip magnet makes it an excellent choice for metal-based projects, providing secure and reliable attachment. The top read feature enhances usability in tight spots, allowing for easy reading of measurements. Furthermore, the level's impact-resistant composite body adds to its durability, making it suitable for rough handling. With its acrylic high visibility vials, this Swanson Speedlite® Magnetic Torpedo Level ensures clear and precise readings to assist you in achieving accurate results.

FEATURES

- Full-length strip magnet.
- Top read feature for ease of use in tight spots.
- Rubber end caps for shock absorption.
- Impact-resistant composite body.
- Acrylic high visibility vials.
