WOODEN CARPENTERS MALLET

FP130

DESCRIPTION

The Footprint carpenter's mallet is a must-have tool for any woodworker. This mallet is made out of specially selected beechwood, which is known for its strength and durability. The wood has been carefully chosen to ensure that it is of the highest quality, making it the perfect material for a tool that will see a lot of use. The mallet is particularly well-suited for use with wood chisels, as its weight and design make it easy to use with precision and accuracy. The handle is comfortable to grip, allowing for extended use without causing hand fatigue or discomfort. If you're a woodworker looking for a high-quality, reliable carpenter's mallet, the Footprint carpenter's mallet is an excellent choice that is sure to meet your needs. Proudly made in Sheffield, Britain.
