

PRODUCT INFO

LINOLEUM KNIFE

FP2220

DESCRIPTION

The Footprint Linoleum Knife is a classic tool designed for cutting linoleum and other similar materials. Its traditional design features a beechwood handle that is securely fastened with three rivets. The hardened hooked blade is durable and sharp, making it ideal for cutting through tough materials with ease. The curved shape of the blade also helps to reduce the amount of effort required by the user, eliminating the need for constant pressure while cutting. This makes it a time-saving and efficient tool for linoleum, vinyl, veneer, and carpet cutting tasks. Manufactured in Sheffield, Britain, the Footprint Linoleum Knife is known for its craftsmanship and durability, making it a trusted choice for professionals and DIYers alike.
