

## PRODUCT INFO

# CHAIN PIPE CUTTER

## GO182-10

### DESCRIPTION

The Grip-On Series 182 Chain Pipe Cutter is a versatile tool that can cut through a variety of thin wall pipes such as steel, copper, and PVC, up to 2.6mm in inaccessible areas, making it a useful tool for hard-to-reach spaces. Its simple ratcheting mechanism eliminates the need for hand gripping effort and ensures perfect tracking, while the 13 alloy steel cutting wheels make evenly cutting difficult-to-reach thin wall pipes a breeze. The cutter's locking mechanism prevents lateral movement and misaligned cutting, while the butterfly screw allows for easy feeding as cutting. The adjustable jaw opening, ergonomic design, and comfortable handling make the cutter easy to use. Its superior quality forged steel jaws, concave profile for better push-pull, and epoxy paint coating on the handle make it 20 times more corrosion resistant than nickel, ensuring that it is durable and reliable.

### FEATURES

- Cuts thin wall pipes (steel, copper, PVC etc.) up to 2.6mm.
- Locking mechanism: Avoids disaligned cutting.
- Butterfly screw: Allows easy feeding as cutting.
- Ergonomic design, comfortable handling.
- No pinch, easy release.
- Concave profile for better push-pull.
- Superior quality, forged steel jaws.
- Corrosion-resistant Epoxy paint coating.
