DIGITAL THERMOMETER

PT1324

DESCRIPTION

The Plumtest Digital Thermometer is a versatile temperature measurement tool, capable of accurately gauging temperatures ranging from -50 to 200 degrees Celsius. Ideal for monitoring the outflow temperature of hot water units, thermostatic mixers, and tempering valves etc. This user-friendly device offers an auto-off function for energy efficiency and has a button for toggling between Celsius and Fahrenheit readings. Crafted with a durable stainless steel probe, it ensures longevity and precise measurements. The thermometer is equipped with a protective probe cover featuring a pocket clip for easy portability and comes complete with a spare battery.

FEATURES

- Measures from -50 to 200 °C.
- For checking the outflow temperature of hot water units, thermostatic mixers, and tempering valves.
- Auto-off function.
- Toggle between Celsius / Fahrenheit.
- Stainless Steel probe.
- Protective probe cover with pocket clip.
- Comes with a spare battery.

BARCODE: 9348099001029

RANGE: -50 to 200 °C (-58 to 392 °F)

ACCURACY: +/- 1°C (0 to 100°C)
+/- 1.8°F (32 to 212°F)

INCREMENTS: 0.1

LENGTH: 140mm

BATTERY: LR44 1.5v

WEIGHT: 20g (with cover)
