12L TEST BUCKET

PT9866

DESCRIPTION

The Plumtest Test Bucket is an excellent choice for pressure testing water systems, ensuring they remain sealed and leak-free. With this reliable and accurate tool, you can obtain precise test results with ease. In the event of a pressure loss, the gauge prominently displays the current pressure, enabling quick identification. The kit includes a convenient 1.5m long hose and four spare washers to ensure uninterrupted testing. Designed for both residential and commercial use, this 12L Solid Steel Bucket boasts a high-quality 2 valve system, making it a genuine Plumtest product. Whether you're a homeowner or a professional, this versatile testing kit is a dependable solution for your water system needs.
