OIL-FEED GLASS CUTTER

KST305

DESCRIPTION

The K-Star Oil-feed Glass Cutter stands as a pinnacle in glass cutting tools, boasting top-notch quality and enduring performance for the most demanding glasswork. Crafted with precision, its shaped and tapered clear plastic handle, featuring a profile grip, ensures optimal control for craftsmen and hobbyists alike. Versatile enough for factory use and catering to the needs of artists and craft professionals, this cutter is equipped with a tungsten carbide wheel blade that is impeccably ground for a pristine score and an extended, wobble-free service life. Fitted with a wide cutter head, it excels in straight cuts, while the unique oil-feed system allows users to tailor the oil amount to their specific requirements. Tailored for thin glass, it epitomizes durability and functionality in every cut.
