BULLDOG AVIATION SNIP

MW6716-B

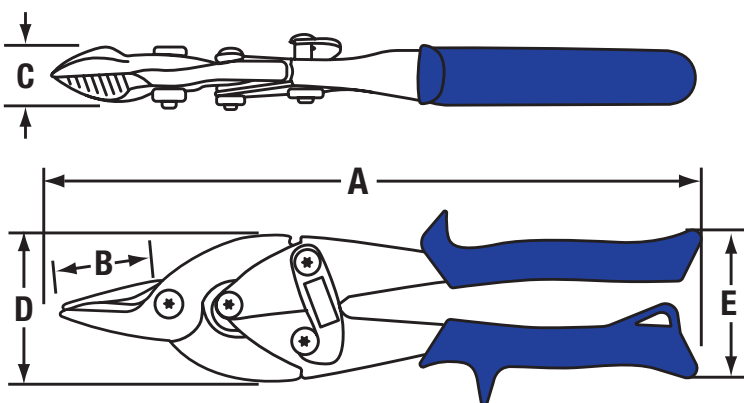

DESCRIPTION

Midwest® Bulldog Aviation Snips cut trim and thick material up to 16 gauge cold rolled steel and cut multiple layers of sheet material such as cleat and rolled seams. Used for cutting straight or wide curves. Use in either hand. These snips feature GLIDETECH® Forged Blades: unequalled strength, longest lasting edge life, and the most precise cutting action. Blades are hot drop forged of molybdenum alloy steel and Austemper® heat-treated to best accept and hold their precision ground cutting edge. Blades cut complete from “pinch of the blades through their points” and pivot on a Grade 8 bolt that is threaded and affixed into the bottom blade keeping blades in precision adjustment, and if ever necessary, allowing them to be readjusted extending peak performance. Equipped with KUSH’N-POWER® compound leverage handle action which multiplies handle force while providing a soft, sturdy and comfortable grip. Made in USA!

Cutting Capacity:

16ga cold rolled steel, and 18ga stainless.

BARCODE: 727226130365

OVERALL LENGTH (A): 238mm

CUTTING EDGE (B): 22mm

JOINT THICKNESS (C): 20mm

JOINT WIDTH (D): 55mm

HANDLE SPAN (E): 60mm

COLOUR: Blue

BLADE PATTERN: Straight

WEIGHT: 370g
