

PRODUCT INFO

# CORNER SCRAPER BLADE

## HDX14-14

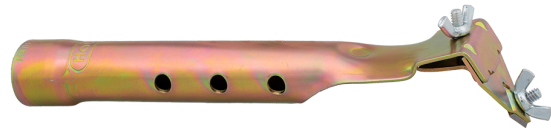

### DESCRIPTION

The Haydn Tungsten Carbide Tipped Corner Scraper Blade is a replacement blade for the HD14 Corner Scraper. The blade is used to effectively remove old paint, varnish, and glue from any wooden surface. The blade is 14mm x 14mm, making it perfect for use in difficult-to-access corners. This scraper is specifically designed for wooden surfaces, and its tungsten carbide tip ensures that it maintains its scraping edge for optimal performance.

### USE WITH

HD14 Tungsten Carbide Tipped Corner Scraper

### FEATURES

- Removes old paint, varnish, and glue from wood.
- For reaching hard-to-reach corners.
- Tungsten carbide tip for optimal performance.
