

## PRODUCT INFO

# HEAVY DUTY T-SQUARE

## SWSVW1350M

### DESCRIPTION

The Swanson Savage 1350mm Heavy Duty Metric T-Square is crafted from 3/16" (4.7mm) high-strength anodized aerospace aluminum. Its extra-thick head, secured with five aircraft alloy steel rivets, ensures enhanced performance and durability. The 50mm wide reverse-ruled blade features laser-etched graduations, offering precise measurements in both directions. With metric 2mm graduations, this T-Square is ideal for any drywall job, making it easy to fit, mark, and cut most drywall panels and applications.

### FEATURES

- Made from 3/16" high strength aluminum.
- Accurate 90 degree angle
- The extra thick head is secured with 5 air craft alloy steel rivets for greater performance and durability.
- Wide reverse ruled blade with laser etched 2mm graduations for precise measurements in either direction.
- Easy to fit, mark, and cut most drywall panels.
