

PRODUCT INFO

QUICK RELEASE BIT HOLDERS

DESCRIPTION

The GFB Quick Release Bit Holder is a premium tool engineered to the highest standards. It features a magnetic and smooth quick release anti-jamming mechanism, ensuring efficient bit changes and secure bit holding for 1/4" hex shank driver bits. This bit holder adds extra length, making it ideal for accessing tight spaces with ease. Specifically designed for use in impact drivers, it withstands heavy-duty applications, providing reliable performance and durability. GFB Quick Release Bit Holders are industrial tough and perfect for top-line industries.

FEATURES

- Manufactured to the highest specifications.
- Magnetic and smooth quick release anti-jamming mechanism.
- Efficient bit changes & secure bit holding for 1/4" hex shank driver bits.
- Adds extra length for accessing tight spaces.
- Designed for use in impact drivers.
- Industrial tough, perfect for top-line industries.
