

PRODUCT INFO

PIPE SAW

TM240P

DESCRIPTION

The Topman Pull-Stroke Pipe Saw revolutionizes cutting with its versatile design, catering to PVC pipes, wood, plastic boards, and bamboos. Its pull-stroke action ensures swifter, more precise cuts. Compatible with all Topman-Z saw blades, its ergonomic plastic handle features a convenient screw knob interchangeable blade system, facilitating effortless blade changes without tools. The handle's reversible feature allows for hand clearance in confined spaces. Boasting Japanese saw blade technology, its teeth are meticulously crafted for clog-resistant, smooth cuts, while edges are impulse-hardened for extended sharpness. With a rust-preventing Ni-P plated surface treatment, durability and longevity are assured, making it a standout choice for various cutting tasks. Made in Japan.

FEATURES

- Great for PVC, ABS, PE pipes and plastics.
- Also cuts wood, plastic boards and bamboos etc.
- High quality flexible & durable thin blade.
- Clean, accurate and controlled cuts.
- Diamond ground and impulse hardened teeth.
- Rust resistant.
- Screw knob type interchangeable blade system.
- Handle can be reversed to provide hand clearance in tight quarters.

BARCODE: 4976350222781

TYPE: Fine PVC

OVERALL LENGTH: 380mm (15")

BLADE LENGTH: 225mm (8-7/8")

BLADE THICKNESS: 0.6mm (0.024")

KERF: 0.93mm (0.037")

TPI: 17

WEIGHT: 145g
