# BIX<sup>®</sup> PIPE CUTTER

## KP902210

### DESCRIPTION

The KNIPEX BIX<sup>®</sup> Pipe Cutter is an innovative tool designed for cutting plastic pipes and sealing sleeves with precision and ease. It effortlessly handles unreinforced plastic pipes ranging from Ø 20-50mm with wall thicknesses up to 2.4mm, as well as soft plastic pipes and foam-core variants up to 3.5mm thick. Its ergonomic design ensures a comfortable grip, while its rotatable knife block allows for versatile cutting—positioning the blade in the middle for pipes and on the outside for sealing sleeves. The tool includes two spare blades and a locking mechanism for safe transport, making it an essential for quick, clean, and efficient work.

### FEATURES

- Clever pipe cutter: Shaving-free cuts, ergonomic design.
- Cuts Ø 20-50mm unreinforced plastic pipes (up to 2.4mm thick).
- Cuts soft plastic pipes with foam cores (up to 3.5mm thick).
- Cuts sealing sleeves 2-3mm from the wall.
- Suitable for high-temperature plastic drain pipes and electrical conduits.
- Rotatable knife block for versatile cutting.
- Integrated locking mechanism for safe transport.
- Two spare blades included.
