TRI LOK MEASURING TAPE

FSTL8M

DESCRIPTION

The Fisco Tri Lok Measuring Tape is a reliable tool for professional users who demand accuracy and durability. The blade is precise to EC Class I standards and graduated in millimeters with red numbers every 100 millimeters. It is made of "Matt Coat" carbon spring steel that is concaved, hardened, and tempered for long extension and polyester coated for improved resistance to abrasion. With an easy 90mm inside measurement, add-ons are effortless. The tough grey ABS case has a non-slip rubber grip pad for a secure hold. The positive action lock is easy to operate and minimizes blade slip while holding the blade securely at the desired length. A bump stop provides added blade and end-hook protection. The tape also includes a belt clip and self-zeroing end-hook. This measuring tape is proudly made in Britain.

FEATURES

- Carbon spring steel blade, accurate to EC Class I.
- Made in Britain.
- Tough grey ABS case with non-slip rubber grip pad.
- Easy-to-operate positive action lock, minimising blade slip.
- Bump stop for added blade and end-hook protection.
- Belt clip and self-zeroing end-hook.
