

PRODUCT INFO

SOCKET ADAPTORS

DESCRIPTION

GFB Industrial Tough adaptors are specifically designed & manufactured to Australian conditions. Crafted from high tensile steel, these adaptors are engineered for unparalleled strength and durability, surpassing standard counterparts. Built for industrial toughness and precision, they effortlessly handle high torque applications. Featuring a 1/4" hex shank, they seamlessly integrate with drill drivers and impact drivers. Each adaptor includes a spring-loaded ball bearing for secure socket retention, ensuring reliable fastening and loosening of fasteners with ease and efficiency.

FEATURES

- Made from high tensile steel for superior strength and durability.
- Industrial Tough - Precision Design.
- Handles high torque applications with ease.
- 1/4" hex shank for quick changes.
- Compatible with drill drivers and impact drivers.
- Spring-loaded ball bearing for secure socket retention.
