

## PRODUCT INFO

# SUPERLITE PLASTERING TROWEL

## RG230R

### DESCRIPTION

The Ragni Superlite Plasterers Trowel has a carbon steel blade that provides a good quality finish and ensures trowel longevity. The ABS stem and handle makes this trowel lightweight and provides comfort during use and there is excellent knuckle clearance between the handle and blade. Only the highest quality carbon steel is used - producing reliable finishing trowels with exceptional value for money for over 20 years - rated by construction workers, DIY enthusiasts and Builders alike. This trowel is best used for plasterers as it is designed to apply plaster finishes to walls or ceilings.
