

## PRODUCT INFO

# CARPENTERS SQUARES

### DESCRIPTION

Footprint Carpenters Squares are a trusted tool used by craftsmen worldwide to mark and verify right angles on wood and between joints. The hardened steel blade of the square has been chemically blued, providing a layer of protection against corrosion. Three fitted brass rivets secure the blade to the stock, ensuring stability and precision during use. Additionally, a thick brass plate is affixed to the stock, creating a durable working edge that extends the life of the tool while also maintaining its squareness. The stock itself is made from high-quality Walnut wood, which is a hardwood that is not a protected species. All of these features make the Footprint Carpenters Square an exceptional tool for anyone working with wood. Proudly made in Sheffield, Britain. Available in 3 sizes: 150mm, 230mm, and 265mm.

#### FP1247-150

**BARCODE:** 5013579122443

**ANGLE:** 90°

**MATERIAL:** Walnut

**BLADE LENGTH:** 153mm (6")

**BLADE WIDTH:** 50mm (2")

**LENGTH:** 297mm

**WIDTH:** 125mm

**DEPTH:** 20mm

**WEIGHT:** 195g

#### FP1247-225

**BARCODE:** 5013579122481

**ANGLE:** 90°

**MATERIAL:** Walnut

**BLADE LENGTH:** 233mm (9")

**BLADE WIDTH:** 50mm (2")

**LENGTH:** 278mm

**WIDTH:** 165mm

**DEPTH:** 20mm

**WEIGHT:** 280g

#### FP1247-263

**BARCODE:** 5013579122504

**ANGLE:** 90°

**MATERIAL:** Walnut

**BLADE LENGTH:** 270mm (10.5")

**BLADE WIDTH:** 50mm (2")

**LENGTH:** 312mm

**WIDTH:** 183mm

**DEPTH:** 20mm

**WEIGHT:** 301g
