LEAK ALERT™ X

ZN-WDX

Smart Water Detector

The Zircon® Leak Alert™ X Smart Water Detector provides audible, visual, and email alerts when it detects water, warning you to a potential water leak. Powered by one 3V lithium battery, the Leak Alert™ X connects to Wi-Fi, eliminating the need for a separate hub. Compact and lightweight, the Leak Alert™ X Smart Water Detector consists of two parts: The detector alarm housed in a plastic, magnetic case, and an attached 9.8 ft. (3 m) sensor cable to enable discreet leak detection in areas not typically accessible with a standard detector. A complete solution can be created by placing an unlimited number of detectors throughout your property as each Leak Alert X operates independently and is individually named during the setup process. To configure, link each detector to your Wi-Fi, then enter the detector location and contact information. Place the detector on any surface, mount on a wall, or affix to a magnetic surface. The sensing contacts must lay flat against the surface in order to detect water. Once moisture is detected, a loud SOS alarm will sound, red LEDs will flash, and an email alert notification will be sent, via Wi-Fi, to up to 5 configured email addresses. Ideal for single family homes, multi-unit apartments, office buildings, rental properties, hotels, and schools.

Place it anywhere the potential for flooding or leaking exists:

- Under sinks
- Near water heaters
- In basements
- Near dishwashers and refrigerators
- Near washing machines
- Under fish tanks
- Near plumbing and toilets

BARCODE:	042186705140
DETECTOR SIZE:	109mm x 30mm x 63.5mm
CABLE LENGTH:	3 meters
SENSOR SIZE:	61mm x 7mm x 20mm
WEIGHT:	130g (including battery & cable)
BATTERY TYPE:	3V Lithium, required
LOW BATTERY:	Unit will beep to indicate
SOUND INTENSITY:	90 dB
OPERATING TEMP:	0° to 41°C
STORAGE TEMP:	-20° to 60°C
HUMIDITY:	90% RH maximum (non-condensing)
SHOCK RESISTANCE:	From 1.8m drop on concrete
WATER RESISTANCE:	Splash proof, not waterproof.
