

PRODUCT INFO

RUBBER MALLET

FR200

DESCRIPTION

The Field Rubber Mallet is a remarkable tool, expertly crafted for a multitude of tasks. Its lengthy 38cm steel handle provides the perfect leverage for precision work, making it a versatile companion in various settings. The mallet's tough, durable rubber head not only ensures longevity but also delivers consistent, reliable performance, whether you're securing tent stakes or assembling furniture. Additionally, the rubber grip offers extra support and comfort during extended use, reducing hand fatigue. Weighing in at 1kg, this mallet strikes the ideal balance between heft and maneuverability. Crafted from top-quality rubber, it stands up to the toughest challenges, making it a dependable choice for professionals and DIY enthusiasts alike. Proudly manufactured in New Zealand.
