

PRODUCT INFO

300mm HACK SAW

GM3000-01

DESCRIPTION

The G-MAN professional hack saw is a reliable and efficient tool, ideal for cutting various metal pipes, rods, brackets, and even plastic materials. Crafted with a sturdy aluminium frame, it ensures durability and stability during use. The saw's centred blade provides optimal balance and enables high blade tension, ensuring precise and straight cuts. Comfort is prioritized with its soft grip handle, ensuring a comfortable and secure grip for the user. For added convenience, the hack saw is supplied with a Bi-metal blade 3003-3024. Its cleverly designed frame allows for unobstructed visibility of the cut. With its origin in Sweden, this hack saw proudly embodies quality craftsmanship.

FEATURES

- Perfect for cutting metal pipes, rods, brackets.
- Ergonomic soft grip handle.
- Aluminium frame, designed to not block view.
- Makes straight and accurate cuts.
- Proudly manufactured in Sweden.
