REPLACEMENT BLADE

ZE5002-1

DESCRIPTION

Introducing the Replacement Pipe Cutter Blade tailored for the ZE5042-1 Plastic Raptor Pipe Cutter (Ø 42mm). Crafted from stainless steel, its specialized cutting geometry is ideal for plastic and multilayer pipes. Enhanced by a pointed tip, the blade effortlessly penetrates pipes, ensuring a precise cut every time. The PTFE coating guarantees smooth, clean cuts. Thanks to the ICS "Instant Change System," blade replacement is a breeze, requiring just one hand and no additional tools.

FEATURES

- Designed for use with the ZE5063-1 Plastic Pipe Cutter.
- Stainless steel blade with specialized cutting geometry.
- For cutting plastic and multilayer pipes.
- Pointed blade tip enhances cutting system for precise penetration.
- PTFE coating ensures smoother and cleaner cuts.
- Easy blade replacement with one-hand operation using the ICS "Instant Change System".
