REPLACEMENT BLADE

ZE5004-1

DESCRIPTION

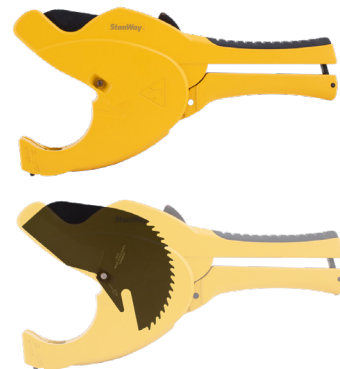

Introducing the Replacement Pipe Cutter Blade, designed specifically for the ZE5063-1 Plastic Raptor Pipe Cutter (Ø 63mm). Crafted from durable stainless steel, its special cutting geometry ensures precise cuts on plastic and multilayer pipes. The blade's unique point enhances penetration, while the PTFE coating guarantees a smoother, cleaner cut. Thanks to the ICS "Instant Change System," swapping blades is effortless, requiring just one hand without any additional tools.

FEATURES

- Designed for use with the ZE5063-1 Plastic Pipe Cutter.
- Stainless steel blade with specialized cutting geometry.
- For cutting plastic and multilayer pipes.
- Pointed blade tip enhances cutting system for precise penetration.
- PTFE coating ensures smoother and cleaner cuts.
- Easy blade replacement with one-hand operation using the ICS "Instant Change System".
