SPEEDLITE COMPOSITE LEVEL

SWPL0024

DESCRIPTION

The Swanson's Speedlite Ruled-Edge Composite Level is a versatile tool designed to simplify your tasks, thanks to its impressive features. Crafted from durable, non-conductive, and high-impact material, it guarantees long-lasting performance. With a length of 600mm, it caters to the needs of carpenters, construction workers, and DIY enthusiasts alike. The level is equipped with three vials: Plumb, Level, and 45 degrees, protected by durable acrylic windows. Its lightweight and non-conductive composite frame ensures ease of use. Featuring double-sided ruled edges, it enables effortless measuring in both inches and centimeters, with increments of 1/8" and mm. Furthermore, this high-visibility Yellow level won't leave any unsightly marks or scratches on surfaces, making it an indispensable tool for home improvement projects and more.

FEATURES

- Non-conductive, high-impact composite frame.
- Double-sided ruled edge for easy measuring.
- Lightweight construction for portability.
- Won't mar or scratch surfaces.
- High-visibility yellow colour
- Includes both metric and imperial measurements.
