

## PRODUCT INFO

# HSS DRILL BITS

### SN333 SERIES

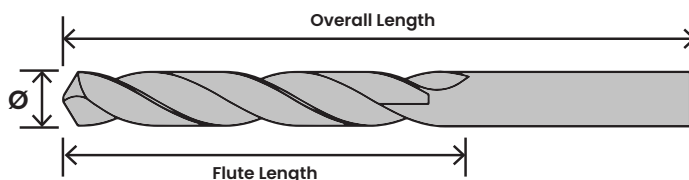

### DESCRIPTION

The Sutton HSS Drill Bit, known as the Silver Bullet, is a versatile tool ideal for both machine and hand-held drilling across various materials like steel, aluminum, brass, wood, and plastics. Featuring a 118° standard point, it excels in general-purpose drilling tasks, while its precision-engineered parallel shank ensures precise hole sizing. Crafted from M2 High-Speed Steel (HSS), this drill bit boasts superior strength, heat resistance, and wear resistance, making it a reliable choice for a wide range of applications.

### APPLICATION

Ideal for general purpose drilling such as steel, aluminum, wood, and plastic.
