

## PRODUCT INFO

# BIX® REPLACEMENT BLADES

## KPX902210E01

### DESCRIPTION

The Replacement Blade Set for the Knipex BiX® Pipe Cutter is designed to keep your pipe cutter in top condition. This set includes 8 blades and a screw for securing the rotatable blade block, allowing easy and efficient cutting of plastic pipes and sealing sleeves with diameters between Ø 20-50mm. The blade can be easily replaced and fitted into the blade block, which rotates within the handle to accommodate various cutting applications. Extra blades can be conveniently stored inside the handle for quick access. Packaged in a plastic storage case.
