

PRODUCT INFO

JUNIOR HACKSAW BLADES

GM3011-32

DESCRIPTION

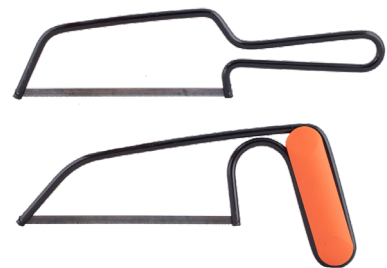

Introducing the G-MAN junior hack saw blades, crafted from premium carbon steel for exceptional strength and durability, guaranteeing extended tooth life. Specifically designed for junior hacksaw frames, these blades excel at blade replacement. Their superior cutting ability makes them perfect for handling small metal pipes and plastic tubing effortlessly. Manufactured with pride in Sweden, these blades uphold the highest standards of quality. For optimal performance, pair them with the G-Man GM3000-10 and GM3000-12 junior hacksaw frames. Trust in the precision and reliability of G-MAN blades for all your cutting needs.
