

PRODUCT INFO

SHEET METAL CLAMP

GO128-08

DESCRIPTION

The Grip-On Series 128 Sheet Metal Clamp is an invaluable tool for professionals in the sheet metal and upholstery industry. It allows for a powerful grip on large, thin surfaces, making it perfect for bending, forming, and crimping sheet metal without the need for hand gripping effort. The wide jaws with a curved profile sector enable it to hold rounded objects, making it versatile in its use. The adjustable jaw opening and ergonomic design provide comfortable handling, while the no-pinch, easy release feature ensures safe and effortless use. The superior quality, forged steel jaws are complemented by an epoxy paint coating on the handle, which is 20 times more corrosion-resistant than nickel, making it a durable and long-lasting tool.

FEATURES

- Wide jaws with curved profile sector allows for holding rounded objects.
- Great for bending, forming, and crimping sheet metal.
- Adjustable jaw opening.
- Ergonomic design, comfortable handling.
- No pinch, easy release.
- Concave profile for better push-pull.
- Superior quality, forged steel jaws.
- Corrosion-resistant Epoxy paint coating.
