

StealthMounts®

Tool Mounts

PROUDLY MADE IN THE UNITED KINGDOM

How to use

Mount under-shelf using suitable fastenings such as screws (not supplied). Leave sufficient space between mounts for tools intended to be stored, including access to release & slide out. If tool requires additional clearance (such as for a belt clip), use one or more StealthMounts Tool Mount Spacer Blocks (sold separately).

Precautions

Do not over-tighten fixings. Check mount integrity prior to use and do not use if damaged. Harsh environments may reduce strength of mount. Mount does not guarantee safe or compliant storage of tool, local regulations must be observed where applicable. Fit in a suitable location where failure (such as worn or broken mount) or tool detaching from mount cannot cause harm or damage if tool falls. Do not use at height. Liability limited to MSRP of this product. ® Registered trademarks are property of their respective owners.
