SURVEYORS ROPE

DESCRIPTION

The Yamayo “Million” Surveyors Rope is a PVC-coated fiberglass measurement tool designed for diverse and challenging environments, including mountains, forests, water surfaces, and harbors. Its heavy-duty construction ensures durability without compromising on flexibility and ease of handling. The rope withstands constant use in mud, water, and abrasive terrains. The printed measurements are protected by a non-glare, textured vinyl coating, offering maximum abrasion resistance. Key features include a heavy-duty pull ring, lightweight design, and non-corroding, non-conducting properties. The rope is coated for maximum protection, making it an ideal tool for surveyors needing reliable and resilient equipment.

YMSR50

BARCODE: 4957111587059

BLADE LENGTH: 50m

BLADE WIDTH: 6.2mm

BLADE THICKNESS: 2mm

GRADUATIONS: 10mm

ACCURACY: ±20.6mm

TENSION: 20N

MATERIAL: PVC coated fibreglass

WEIGHT: 811g

YMSR100

BARCODE: 4957111587103

BLADE LENGTH: 100m

BLADE WIDTH: 6.2mm

BLADE THICKNESS: 2mm

GRADUATIONS: 10mm

ACCURACY: ±40.6mm

TENSION: 20N

MATERIAL: PVC coated fibreglass

WEIGHT: 1565g
