ENELOOP BATTERY AND CHARGER SET

PS-KJ51MCC4TA

DESCRIPTION

This Panasonic Eneloop Battery and Charger Set are the only batteries you need! Eneloop is the new sustainable and reusable battery, simply by recharging it. Designed for convenience, it can recharge up to four AA/AAA Eneloop batteries simultaneously. LED indicators for each pair of slots light green while charging and switch off after a fixed 13-hour period, enough time for the inserted batteries to fully charge. The charger can also automatically detects invalid or incorrectly inserted batteries, ensuring safety by shutting off power to the affected slots. With an approximate charging time of 10-12 hours, this set provides an efficient and eco-friendly energy solution for all your electronic devices.

APPLICATIONS

Works in almost any device where standard batteries are used. From low-drain applications in computer mice to high-drain equipment such as camera flashes, toys, and RC cars, its high capacity and stable discharge voltage will power your gear more reliably and for longer than most single-use alternatives.

CHARGER

MODEL: BQ-CC51TA

WIDTH: 66mm

LENGTH: 108mm

HEIGHT: 27.5mm

MASS: 96g

CHARGING TIME: 10hrs approx

SLOTS: 4

COMPATIBILITY: Eneloop AA/
AAA

BATTERIES

SIZE: AA

MODEL: BK-3MCCE

NOMINAL VOLTAGE: 1.2V

DIAMETER: 14.5mm

HEIGHT: 50.5mm

MASS: 27g

CAPACITY: Up to 2000 mAh /
min. 1900 mAh

QUANTITY: 4 pack

USE WITH

PS-BK3MCCE

Eneloop Battery AA

PS-BK4MCCE

Eneloop Battery AAA
