

PRODUCT INFO

MAGNETIC ALUMINUM TORPEDO LEVEL

SB81SM-250

DESCRIPTION

This compact, bevelled shaped level has a die-cast aluminum body, making it one of the sturdiest levels that STABILA makes. Ideally suited for applications in cramped conditions, it features a slender, trapezoidal profile shape for an optimum, easy grip. The 81 SM Torpedo has a rare-earth magnet system with strong holding power, allowing you to work hands-free when aligning and levelling on steel frame structures. The vial is precisely aligned with the milled measuring surface and locked together, ensuring years of accurate levelling. Easy to clean, its electrostatic powder coating helps remove dirt effortlessly.

FEATURES

- Compact, tough cast aluminium profile.
- Slender, trapezoidal shape for easy grip.
- Strong magnet system for hands-free operation.
- Ideal for cramped conditions.
- Easy to clean due to its electrostatic powder coating.
- Precision-milled measuring surface ensures no discoloration.
- STABILA installation technology for long-term accuracy.
- Includes 1 horizontal vial, 1 vertical vial, 1 milled measuring surface, and rare-earth magnet system.

BARCODE: 4005069025106

LENGTH: 250mm (10")

WIDTH: 48mm

DEPTH: 20mm

VIALS: 2

COLOUR: Yellow

MATERIAL: Aluminium

MAGNETIC: Yes

ACCURACY:

Normal Position: 0.5 mm/m

Reverse Position: 0.75 mm/m

WEIGHT: 218g
