

PRODUCT INFO

TILE & GLASS DRILL BIT

PG728 SERIES

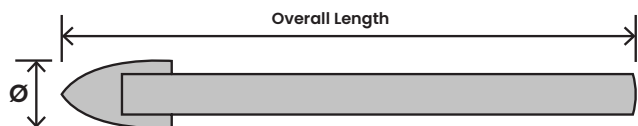

DESCRIPTION

The PG Professional Tile & Glass Drill Bits are crafted from hard metal with carbide tips, ensuring swift drilling on glass, tiles, mirrors, ceramics, and porcelain. Their design prioritizes smooth, clean cuts, making them ideal for delicate surfaces. These bits are to be operated at low speeds and pressures to ensure precision and safety during use. For optimal performance and longevity, cooling these bits with water, turpentine, or petroleum is recommended.

APPLICATION

Ideal for drilling glass, tiles, mirrors, ceramics, and porcelain

SKU	BARCODE	DIAMETER	OVERALL LENGTH	SPEED	POINT FORM	PACKAGING	WEIGHT
PG728-00	8011017728001	3mm	60mm	Low	Spear Point	Carded	7g
