DRAIN CLEARING WHEEL
BY1431**DESCRIPTION**

This Bailey Drain Clearing Wheel has been designed to guide drain rods easily around difficult bends for the purpose to remove minor blockages by pushing the obstructing material clear, allowing the water to start flowing smoothly again. This clearing wheel has been made from solid brass, ensuring strength and durability during use. Has also been fitted with a Lockfast joint which offers more security to the connection of the drain rod as the joint is secured with a locking nut. The connection can't come undone whichever way the rods are turned. For use with Bailey Blue Rods®.

FEATURES

- Brass threaded lockfast fitting for secure attachment.
- Guides rods around bends in the pipe.
- Direct secure connection to drain rod.
- Removes blockages by pushing material clear.
